

Gitoyen

The diagram illustrates a network configuration. At the top, an oval labeled 'Gitoyen' is connected to a bridge structure. This bridge is connected to a large box labeled 'Table BGP StarkNet'. Below this box is another box labeled 'Table de routage IPv6', which is also connected to the same bridge structure. The 'Table de routage IPv6' box contains three entries. A green arrow points from the third entry to the 'Table BGP StarkNet' box.

Table BGP StarkNet

2001:913:2a::/64 via myself
2001:913:2b:1::/56 via myself

Table de routage IPv6

2001:913:2a::/64 dev gpp0 (directly connected)
2001:db8:2a0::/64 dev eth0 (directly connected)
2001:913:2b:1::/56 via 2001:913:2a::1 (static)
